

**Choice** [ choyss ] - noun (*plural* choices); Definition: **1. act of choosing something or somebody:** a decision to choose one thing, person, or course of action in preference to others; **2. power to choose:** the chance or ability to choose between different things

hci prides itself on finding workable insurance solutions for healthcare providers. In 2007 we discovered an underserved market – **hard-to-place or “gray” podiatrist professional liability** and began the process of developing a product offering to serve this niche.

We worked with some of our carrier partners to develop a targeted focus for this class and are pleased to offer a number of competitive options for your gray podiatrist clients and prospects.

## The Power of Choice is Yours

### Coverage Features Include:

- **Claims-made Professional Liability**
  - **Incident Sensitive Claims Trigger**
  - **Defense Costs Inside and Outside the Limit**
  - **Flexible Deductible Options**
  - **Prior Acts Available**
  - **Consent to Settle Provisions**
  - **Employee Coverage**
- And more...**

**We have the expertise and we understand the niche. If you have podiatrist clients unable to find coverage in the standard market, contact us and let us help you choose a better insurance solution:**
